RECOGNITION

Organizational Accreditation

The Accreditation program advances an Urgent Care organization to the highest level of distinction in patient care through safety, quality and scope of services. It also helps Urgent Care centers and clinics stay in-network with select payers.

Certification

CUC designation tells payers an Urgent Care center's scope of practice is consistent with a set of UCA criteria. CUC centers have an edge in marketing their level of services and curbing confusion with other kinds of providers.

Accredited Centers
Receive A 25% Discount
on UCA Membership

Advocacy

UCA is actively working to influence members of Congress, state and local legislators and federal regulatory agencies to support important issues impacting the Urgent Care industry and the patients we serve.

Diversity, Equity & Inclusion

We have also formed a Commission on Diversity, Equity & Inclusion that collects data, identifies best practices, and sets standards for addressing disparities in access and treatment.
