1. What are we already measuring - Ask via survey

2. ~~Benchmarks~~ <sup>\* Define</sup> Metrics

- Define resources
  - Definitions of each metric
  - Result of quality initiatives
  - Use established metrics - MIPS/Value based payments
  - What should we be measuring
- How do we know we are providing high quality care?

~~3. Share data~~

Internal vs. External  
Definitions

4. How to prioritize??

- Body systems
- DX code
- Bread + Butter UC

5. <sup>Share data</sup> Where does data go, how will it be shared  
Determine level of granularity for each system

6. Identified problem - UC doesn't report to CMS

- Incentive to take the survey
- UCA Accreditation Alignment

Benchmarks

- Regional identifiers
