Integrating Behavioral Health in Urgent Care with MHT's SmarTest AI®

**Making Behavioral Health Screening Financially and Clinically Beneficial without Administrative Burden.**

# Integrating Behavioral Health in Urgent Care with MHT's **SmärTest AI**

Ernie Wallerstein Jr.

President & CEO – Mental Health Technologies

Dr. David Caltrider

Chief Medical Officer - HealthCARE Express

Matt Gibson

Director of Business Development - Thriveworks

## The Reality in Urgent Care

- Over 1 in 5 patients ages 12 and over are likely to have a current, diagnosed behavioral health condition ([CDC June'25](#))
- Less than 50% receive treatment ([NIH 2024](#))
- Urgent care providers only have 10–20 minutes per visit
- Most clinics lack a screening workflow or referral network
- Billing and reimbursement are already complex

# POS 20 Billing and Financials

---

- **The Risk**

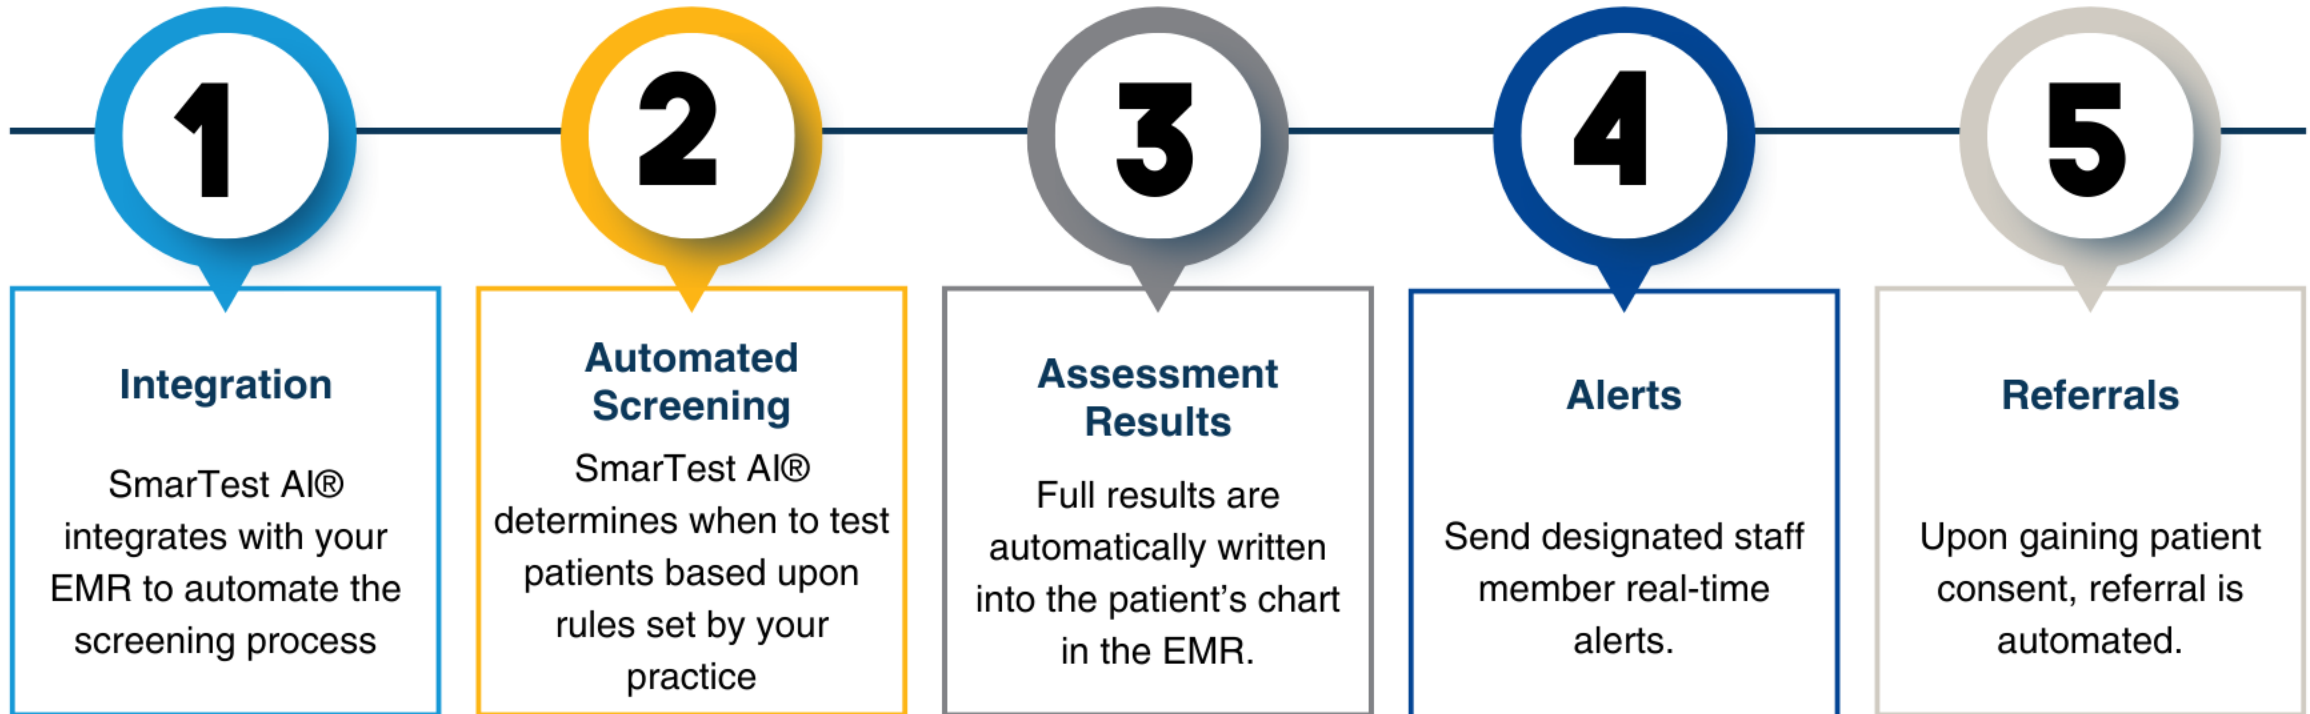

- CMS quality measures tied to reimbursement
- Preventive & behavioral health metrics increasing

- **The Opportunity with SmarTest AI®**

- Automates screenings and accurate CPT/HCPCS coding
- Improved payer quality scores
- New revenue via billable codes (96127, 99406–99409, G0442–G0444, G9920/G9921)

**Impact = Higher reimbursement + better quality measures**

MENTAL HEALTH TECHNOLOGIES

# Integrating Behavioral Health in Urgent Care with MHT's **SmärTest AI**

- **What Makes It Work in Urgent Care:**

- Automated screening and referral workflow (Thriveworks)
  - Can also redirect to internal ancillary services
- Early identification of high-risk patients
- Objective scoring with longitudinal tracking
- Billing support built into the process
- Improved patient care without added staff burden
